About

An Irish Graphic Designer based in Sydney, Australia.

I'm a professional graphic designer focused on creating unique, memorable visual identities that help brands stand out. From logo design to full branding packages, I craft designs that reflect your values and connect with your audience in a meaningful way.

Whether you need marketing assets, stationery, or a clean, responsive website, my goal is to deliver designs that look great and work effectively across every platform.

J&S Automotive Rebrand

Project Description

The rebranding of J&S Automotive was a dynamic project that involved creating a modern, unified identity to reflect the company's reputation and future ambitions. As the graphic designer, I began with in-depth research to guide the new logo design, which evolved into a bold, modern emblem symbolizing strength, reliability, and motion. A fresh colour scheme was developed to balance professionalism with energy, complemented by a strong sans-serif font for headlines and a clean, legible typeface for supporting text.

Branding & Identity

With these core elements in place, I applied the branding across stationery, including business cards, letterheads, and email signatures, ensuring consistency across all communications. The identity was then expanded into vehicle livery, where clear, striking graphics enhanced visibility, and signage, designed to establish a strong and professional presence both inside and outside company spaces. The result was a cohesive brand system that reflects J&S Automotive's heritage while positioning it confidently for the future.

AC Auto Spares Rebrand

Project Description

The rebranding of AC Auto Spares focused on modernising its image while preserving its trusted local reputation in Arva, Co. Cavan. The updated logo uses clean, bold typography to reflect reliability and professionalism, supported by a refreshed colour palette that enhances visibility across digital and physical platforms. This new identity was rolled out consistently across signage, the website, and marketing materials to create a unified brand experience. The process balanced modern design with AC Auto Spares' established heritage, ensuring the business feels both contemporary and familiar to long-time customers.

Vector Automotive Rebrand

Project Description

The logo and branding for Vector Automotive Parts were designed to convey strength, precision, and reliability — values at the core of the automotive industry. The bold red “V” symbol represents motion and power, reflecting the company’s focus on high-performance automotive parts such as brake pads and discs.

The clean, modern typography balances professionalism with technical expertise, ensuring the brand appears both trustworthy and dynamic.

Branding & Identity

Overall, the visual identity creates an impactful and recognizable presence that aligns with Vector's commitment to quality engineering and dependable performance.

Construction Update – September 2025

Works are progressing well on site. The first of the precast Blocks on Phase 1 has reached completion with the final two blocks to top out over the coming weeks. Scaffold drops are progressing in line with the façade works and roofing to all three blocks is well under way. Works are progressing well internally with the design team currently working through snagging on the blocks. The external landscaping works are expected to commence towards the end of this month. These works will see the hoarding along Rathborne Boulevard being moved out beyond the current kerb line in order to complete the works here while still keeping the full hoarding in place to screen the site.

Precast works are progressing well on all 3 blocks and Block 1 north roof is now underway. The final penthouse level will complete this block over the next few weeks. The curtain wall to the retail space at block 1 is progressing and expected to complete in the middle of the month. Brickwork is live on all 3 blocks with the insulated render and standing seam cladding works progressing on Block 3. Fit out works are progressing in Block 2 and 3 with Block 1 commencing this month.

On a positive note in relation to parking in the area we have been notified of an intent to grant permission for the car park at the rear of Super Valu. We are currently awaiting completion of the 4 week appeal period. If this yields a positive outcome we aim to have the car park up and running by the end of October. We apologise for any inconvenience this is currently causing.
